

Security Specialist-SOC

[2026 IBM Consulting Associates] Security Specialist-SOC

Roles & Responsibilities

In this role you will join IBM Consulting via our world class Associate Program for university hires. As an Associate at IBM Consulting you will have the opportunity to work with a diverse range of clients worldwide. Our clients' technical and business needs are constantly evolving. We're hiring inspired, talented individuals, who believe no problem is too big to solve.

We focus on your professional development through ongoing learning, mentorship, development of technical skills, and continuous personal growth, all grounded in a culture of coaching and career advancement. If you see yourself as someone who never stops learning and who wants to unleash your potential, the IBM Consulting Associates Program is for you.

As an Associate cybersecurity Specialist in IBM's Security Operations Center (SOC), you will play a meaningful role at the frontline of client engagement, helping enterprise customers effectively manage cyber risks. You will contribute to meeting their business needs through innovative ideas and the application of cutting-edge technologies.

- Improve existing services and systems within IBM client SOC operations projects
- Deliver tailored IT/OT security services based on client requirements
- Collaborate with security solution vendors to implement and operate system solutions

Required Professional and Technical Expertise

- Majors in Information Security, Computer Engineering, Industrial Engineering, Software/Mobile-related fields, or individuals who have completed security/development-related training or hold relevant certifications
- Basic knowledge of log and traffic analysis, security monitoring systems (ESM), web firewalls, and penetration testing
- Language proficiency: Native in Korean, Business level in English
- 공인 영어 시험 성적 보유자 (점수 제한 없음, 이력서 내 기재 필수)

Preferred Professional and Technical Expertise

- Demonstrated motivation through academic, project, or extracurricular achievements
- Curiosity for tackling complex problems and exploring new ideas
- Ability to manage multiple tasks in a fast-paced environment
